BENEFITS OF CCTV

CRIME PREVENTION

Crime is rife in SA, with business type crime on the rise. We need to do whatever necessary to protest out investments. CCTV cameras are a great deterrent for crime. Make sure you have them, make sure they are visible and make sure your system is working properly.

REMOTE VIEWING

All our CCTV Solutions come with remote viewing as a standard feature. We will set it up for you and make sure you can log in anywhere in the world to check your cameras, provided there is connectivity at your site, and the site you are viewing from. Always be present, no matter where you are.

INCREASED PRODUCTIVITY

CCTV cameras can also be used to increase productivity in the office. There can be two ways of doing this, either covertly or by letting everyone know there is a camera on them at all times. You will be surprised what this does to increase productivity in the office.
